VERNUM = "2016.11.14(11574)_x64"	Title :	Method of Load of application		
OS: Windows 10 64-bit	Problem:	Failed to Load Lisp or application using Script (*.scr)		
TEST Option-1 (Perform Load application using script file *.scr)			C:\Test_Script\Test_Script-2017.scr - Notepad++	
Step 1: Create a new folder C:\Test_So Unzip Test_Script_Load.zip ar C:\Test_Script - Test_Script-2017.scr - NUMERPT.lsp - LotDrawing_Lisp_1.dwg - LoadTest.MNU	cript nd copy the follo	wing files to folder	<pre>File Edit Search View Encoding Language Settings Macro Run File Edit Search View Encoding Language Settings Macro Run Filedia 0 C open C:\test_script\LotDrawing_Lisp_1.dwg filedia 1 C (load "c:/test_script/NUMERPT.lsp") Zoom e 8</pre>	

TEST Option-2 (Perform Load application by typing on command prompt)

Steps :

Command: (load "c:/test_script/NUMERPT.lsp") enter Command: NUMERPT enter

Command:	
Command: (load "c:/test_scr	ipt/NUMERPT.lsp")
-70.2431, 148.6278, 0.0000	III III L 🕑 🗖 4

TEST Option-3 (Perform Load application using Menu file *.mnu)

Steps :

- 1. Switch to ZWCAD Classic user interface
- 2. Command:Menuload
 - "c:/test_script/LoadTest.MNU"
- 3. Click on Test Load menu follow by Load NUMERPT
- 4. Click on Test Load menu follow by NUMERPT-Lot Numbering

Test Conclusion :

Test Option-1 - Load lisp application using Script file failed. Test Option-2- Load lisp application by typing at command prompt work or no problem. Test Option-3- Load lisp application using Menu file work or no problem.
